@The_Icelandic_Architect

Huldajons Architect FAÍ - Iceland

2016 - Present

Residential - commercial and landscape projects.
Full architecture service from concept to project development and technical details.

BIG - Bjarke Ingels Group - Architect MAA - Denmark

2019

Architect MAA, Competition department.
Large scale projects - Master plans > Arena > Theater > Mix use housing > School building
Schematic Design and Design Development and innovation.
Concept design - 3D modelling and making design proposals.

TENDRA Architects - Architect FAÍ - Iceland

2018 - 2019

Freelance Architect, Larger scale residential and commercial projects.
3D modelling, conceptual design - making design proposals and sales presentations.

URBAN POWER Arkitekter - Architect MAA - Denmark

2016

Larger scale commercial and school projects.
MASTERPLAN design proposals, conceptual design and competition entrees.

Co-Founder of HJ-LP - Denmark

2015 - 2017

Architects engaging and interfacing with parametric design, digital fabrication and 3D modeling.
Collective innovative projects and workshops on digital fabrication.
Designing through various scales with computational design in architecture.

The Royal Academy of Architecture - Visiting lecturer and teacher - Denmark

2015

Lecture: How to use 3D printer as a design tool?
Course: Introduction to 3D printing.

Privat Contractor Christian Muhl - Architect assistant - France

2007-2010

2D drawings and 3D models - private housing.

MAPPROJECTS Intern - UK

2009

Design of a music studio and a refurbishment of a London townhouse.

Intern 2008 - Iceland

IAV, Icelandic Prime Contractors

HARPA (Reykjavik concert hall) construction site

Diplomas

2013 - 2015

**Master of Architecture, MAA from at KADK, CITAstudio
Computation in Architecture.**

Final thesis - Velux award for innovation.

2011 - 2013

**Master in Advanced Architecture at IAAC, Barcelona.
X-URBAN DESIGN, directed by Willy Müller - Smart Cities**

2007 - 2010

Bachelor degree in Architecture at ENSAS, France

2006 - 2007

Reykjavik Technical School, Iceland

2005 - 2006

Iceland Academy of the Visual Arts

TECH SKILLS

..... Rhino 2D and 3D

..... Grasshopper (Design with data - various modeling
plug-ins for form finding, weather analysis tools
and structural optimization for sustainability)

..... REVIT

..... Vray for rendering

..... AutoCAD

..... SketchUP

..... Adobe creative tools (Photoshop, InDesign, Illus-
trator and Premiere Pro).

..... Microsoft Office (Word, Exel, PowerPoint)

..... Digital fabrication, 3D printing, laser cutting, CNC
milling.

..... Maya -3D modelling and simulation

..... Ecotect & Vasari sustainabillity analysis tools

..... Python (coding language), Industrial 6 - axe
robotarm

Workshops and Exhibitions held

2015 - Global 3D print event by HJ-LP, Co-host 3DHUBS.

- 3D print workshop by HJ-LP in the FabLab NordVest Cph

- On the Move With Your 3D Printer,

- Exhibition at the Dome of Vision, Cph. The Learn Do Share
workshop, exhibiting thesis project, Beyond Structure.

2015 - VELUX - Daylight award of innovation for
Masters final project: Beyond structure at KADK

2012 - Award for innovative sustainable solution
thinking for digital fabrication at IAAC
